

Ben Russ  
Minister for Foreign Affairs  
Office of Global Affairs

### **Government of the Democratic People's Republic of Korea**

**As the great nation of North Korea, our main priorities are to maintain independence, provide security for our citizens, eradicate the myths about DPRK, and easing tensions with Japan. The DPRK has been under attack from sometime now from the United States, the EU, and Japan. It is top priority to defend ourselves and clear our name of the false myths about us to keep the country prosperous and great.**

1. The DPRK strives to maintain independence from the rest of the world despite capitalist society trying to change how we live. We stay private and reserved because we do not want our country, which is rich and healthy, to be overrun and have to submit to foreign powers.
2. Our security is at risk of invasion or attack from various capitalist countries across the world. We must sustain our prosperous socialist society so we don't become victim to the evils of the UN nations. We must continue to perform military drills and build nuclear weapons in order to deter the rest of the world from attacking us, as they have tried before. We must expand our military and prepare citizens for possible military conflict due to the US, UK, and Japan attacking our way of life.
3. The United Nations, mainly the US and the UK as well as Japan, have often spread the false narrative around the world that the great DPRK struggles to feed their people and are responsible for human rights violations in the country. This is not true and we want to change the world view and our country, without opening ourselves up to the world. This

false narrative is a direct attack on the DPRK and has influenced other countries to look at us as a target.

4. We must ease tensions with Japan, they have ignorantly and stupidly repeatedly called us out for performing simple military drills on our own soil. This is because they are fearful of our greatness and our power. They treat a simple missile drill as if we had just bombed the middle of Tokyo.
