Subject: rapidly rising rates of inflation and borrowing costs raising alert for worsening affects

Type: Humanitarian

Status: Heightened

Event:

Since COVID-19 and the devastating internal/ external events that have taken place in North Africa, we are facing significant civil strife due to the demand of food and energy-fueled inflation which is heightening political instability. Food insecurity, food insecurity, armed conflict, and the large epidemic that swept the world has made Sahel the fastest growing humanitarian crisis on the brink of deprivation.

Action: it is recommended that the U.S provides additional funding and health services to increase the regions mean of survival which may include food, water, clothing and, medical supplies.

Humanitarian aid: \$100,000
