

Mujahid of Hezbollah Ivy Bray

Greetings,

Hezzbollah does not take kindly from comments made by the United States Press Secretary that we are a terrorists. We made simple requests that we believe are just and are rightfully deserving of our people who have had to experience devastation and loss due to actions made by the United States and Israel, as well as their allies.

In response to this statement, we have carried out a series of bombings in relation to the ongoing European conflict in support of our Russian and Iranian allies. We stand strong with the Iron Crecent. We have targeted Big Ben in London, Lego Land in Denmark and in Lebanon a true member of our cause gave his life in Martyrs' Square, Thank you Tuckayer Carlison for your devotion and dedication to a new era of Peace in Lebanon and the Middle East. Your sacrifice will not be forgotten and will long be remembered in the future of our people.

As for the other two bombings, these operations are a display of our ability to operate and coordinate on the world stage. Like our allies, Hezbollah is strong and will continue to fight for their right to recognition. These targets were chosen for the monumental value and in retaliation against Denmark's corporation's that refuse to bring a suitable product to all fans despite holding the license to do so.

If a deal is not made to give us control over our rightful territory so we can develop peace in the region in collaboration with our allies, we will not hesitate to continue to make our voices heard.
